

My Report On Outreach

Lately theres been talk about outreach from people like Max and Ruth who for some years does not fit with outreach mostly it is the kids who want it that way. They say in the reports they write that kids from the Drag are hopeless and need a lot of help and sympathy from their different groups and need people to help them. I admit there are some kids who need help but they cant get the help from Child aid and stuff. Some they say they rent and give there clothes from them but they dont have the real thing a growing kid needs in this sort of place like the drag they need friends people who they can trust & and have sports with and have something to do.

They cant go to Childrens aid and find a friend who does things he likes because they have a job it supposed to help the kid and get them on a straight line but who can handle kids nobody but they can do things with them like when theres sports who can hold them back and they discover ~~they~~ things like sports mapship and their self through things like sports and stuff and people like Max and Ruth dont know any thing about they only think they know but to know any thing one has to know the kids and thats where outreach comes in.

FEAR

I was a quiet child

AFRAID of walking into
a slow slow

AFRAID of the water, the sea

AFRAID that mom & dad
would leave again

AFRAID of my clumsy body,
that I knew no one would ever love

But I played my way
played my way

through Fear

" The Day I found a home I could call

my own "

Made me feel whenever I roamed

The sun was shining brightly

The wind was blowing lightly

There were beautiful sounds of laughter
from the table amid the talking & chatter

The temptations of my wrongs
were put to rights

~~was strengthened to fight~~

So the path of my life

was strengthened to fight

Thus ~~is~~ a day I found a home
I could call my own
