

8:59

2110

Call to worship.

This sound is coming into your Room, ^{home, hotel, hospital} or your car, or your boat. You're letting someone or something other into your private space; - but you may not be paying any attention.

A call to worship is a call to pay attention.
Not just to these sounds. They can be poor broken things.
The call to worship is a call to pay attention
to a reality at work in our private and public space
that we often don't pay ^{any} attention to.

The call to worship is a call to pay attention to God.

Will you

Boin in the Hymn — based on psalm 121

Unto the hills around as I left up my lonely Eyes

Let us Pray :-

Almighty God - our heavenly Father

Our lips address you in our song and in our prayer. but do you have our attention? We talk about you in church and use the proper language but is our language about what actually possesses us?

Take this time O Lord of life, and bring together
what has our attention, and who you truly are,

If this means a wrestle through the night -
depart not from us until you have blessed us.

May 1

Good evening. In Job Show - The First Church worship
tonight - and through Job & August ~~study~~ ^{study} right is study produced
