In the midst of your workshop - we admit  
now to what we work & complain about

Some of our best out of touch with life & work  
we could like more than - Some of our best  
life is known as far the work than - Some of  
poor is known as above the work than - Some  
of the poor are really in without substance.

Some of the things we delight in, is at the expense  
of others - Some of the poor we avoid is for  
our salvation - Some of the imitation as  
complaint is have our call to love

In the midst of all that we should  
know how to pray, with us after unwork  
proper - as we seek to see ourselves of the  
worklines of the paper we do -

When it comes down to, it has been  
come out in groups & right - one of  
poor & right the work of your spirit?

Depart not from us until you  
have advised us &

our faith - there are those who  
who have received above from the rest of  
us - We have got the kind of work  
poor - which we do not see in  
- that the work of the world & the  
abandoned ones

Each of us with a vigilance of one or two  
men is absorbed from the rest of your people,  
given us to each other & the power of your  
vigilance — Because of your  
children through the strength of your  
shepherd love, each one of us is  
a beloved & abundant one.

each one of us is a beloved & an  
abundant one — an abundance  
of your suchness and we are  
proud ourselves and loved by one another  
It is your wounds that heal us —

---

In the silence we lift up  
all that you have joined together —  
the poor — the hungry — the ~~rich~~ — naked  
those forgotten in the world  
Sons of the world — come out of  
your hearts and let us see you  
until we are all each other
