THE HELPING HAND STRIKES AGAIN

Sunday Mar 16 Breakfast

Have you heard about

SIMULATION GAMES?

They are a high priced educational device. They come in a box like Monopoly like Scrabble

Each game is created to do something, a simulation - that the

player experiences it like it was real. What it is like to be a

powering

~~program~~

So during the whole part of the game

you'll experience the same feelings of if you actually were in that

position.

Your brain something you can't learn to being told

Really

I heard of a Simulation Game with a fascinating title THE HELPING HAND STRIKES AGAIN

"THE HELPING HAND STRIKES AGAIN"

I guess if you played that game you'd find out what it was like to be helped.

That could be a devastating experience.

~~I find it hard to believe that we can experience some of the feelings simply by using our imagination~~

Can you imagine what it would be like to be helped?

1. Deceptive - help is a sugar-coating better pill of exploitation
- A. @ Help - that keeps exploiting students for me
Foreign Aid - clothes and earnings
Americans in Viet Nam
- (1) help for help in what is not helpful
- all over
- Dependence on foreign roads

2. More subtle form of the same thing
helping hand can be long - put down
- help to one world -
- opposition
- Fake Cables
- offer what know best what is
good for you
- well know what will help
helpers → wants help - asked for it -
(1) thong hand - gives you what you want.

Presumption
you can
be right
in making
that distinction
all the time

3. Do I For

Enclosed Boundaries
is given of help

(1) Undermines responsibility
dominant of the person helped
That hand to help - who wants to be a helper?
hard to please → rewards club

Called for if your really want to be a help
not just want have something with a low
cost glow on.
