University Sunday

I have been invited to preach at what the young people of this church have designated, a University Student Service.

This means - I am to be the occasion on which you hear what the Gospel of Jesus X has to say to university students!

The first word I want to say -

will have to be revised - because it is the wrong way to say it.

THIS:-

Take your religion to the university.

It won't do to study or read - unless you do.

all of us should use.

because it accompanies you when you are.

But it's a bad way to say it:-

If what you call your religion - is something you take or don't take with you at will.

Then it's not your religion - something else is.

your religion is what "takes you"

The matter you take with absolute seriousness.

Let it be the Gospel of Jesus X that sends you to University.

The Gospel of J.C. } sends you into the total experience that becomes a

different from ordinary University

study class then

Becomes a member of a certain community partaking of the University experience.

Send you to Pilgrimage:

to Mission:

you are asking.

Gospel cannot be given
until it is seen as a question to questions
you are asking.
