

ST David's North Van.

Sunday Aug 17 1986 - Patient 13

In all three lessons —

We come upon unlikely notions.

for:- You have received no 2 Gal -
- Dated -> Answer, translation
-> solve entire

HOPKINS - who is a poet with a value
→ BIBB

NEEDS: For the JOY - that we get before we
understand the JOY →
JOY + DOING + UNDERSTANDING →

Wentley - falling over

Don cannot take
— locked at a different
Cape in love

- of the people who responded in the poll were required to call
- had much more time to talk - slides to the General call

General: - Think not I saw
to Br's ~~thing~~ →

Distance from Zoro's camp
/ appropriate location spoken to me one in particular

- " I came to cast fire upon the earth and would that it were already kindled
- " I have a baptism to be baptized with and how I am constrained until it is accomplished.

More acquainted with Biblical Religion

in place of our romantic notions of it
now it appears some such state as described
here is central to it

What it is to be with God
God is Person.

Perish the phrase God is Person
in the ^{painful} state Between a Call
& its accomplishment

Call to succeed:
not labored
not successful
not undressed

→ constraint in time →

Parents: when you go through with your kids,
when are they behaving as they should?
becoming what they should
how can you keep away & not interfere -
→ how makes words go round
Musty for our business who
would go round
how do you keep not interfering
from being respect & abandonment
→ call & its accomplishment

Why - when are we Thougl with our parents →

- won't stop inbreeding -
- only we let go - ~~not~~ reacting you
- quints - pronounced as the age
- reverting to childish manipulation compensate for loss of power or our them

How do you take responsibility for

- the systems by which we live
for which we benefit

Not the factors who are own in the food production
it's economics →

~~How~~ part of the world tragedy hunger →

Food surplus economically driving food prices
Nation after nation - self-sufficient in food production
land prices → benefit speculators

→ push poor people out of food production

land prices - poor cannot afford what
wealth of commercial users
poor get poor

But must turn away from this responsibility
to policy that can be solved →
fantasy → legislation & sp & 1
→ mean land is

Kid examples → great step for Markand

What's called for us to take responsibility for
problem - that won't "GO DOWN" lined with
& deal with

Take Responsibility for Peace for World

No simplistic solutions; - Atomic Weapons

Global Balance of Terror →

Don't go ~~any~~ — repeatedly + repeatedly the
Horror keeps on &

Don't go ~~any~~ — forget about it,
- really the Horror creeps

more rich

& bloody hearts

& Dupes of Social Policy

all the same really —

Don't make arms race

especially atomic age

any less mad

any safe to ~~forget~~ the slow motion
of it

Another fact: — Constantly regret in the middle of
that painful state between what is called
for and its accomplishment. —

Very attractive to slip out on all
that —

But it won't get you close to God.

That is where God is

Because God Loves the world

Joy: in coming down where you ought to be —

Call of Christ -

Severe

Fearful

Wordiness - they -

Who of us is up to it?

Author of Hebrews: - Wilder of Houston

Corral & Sticks: -

Prop of Church is

make it possible for lame

Chuntions to make it.

This is how we can be good news
to each other -
